Summary

Experienced and versatile software developer with 8+ years of hands-on experience in building mobile and web applications across various industries including e-commerce, logistics, and client relationship management. Specializes in **React Native** and **React** development with a solid foundation in full-stack development using **Laravel**. Proven ability to deliver scalable, performant applications from the ground up and maintain large codebases. Strong grasp of computer science fundamentals and a self-starter mindset.

Skills

Languages & Frameworks: React Native, React, JavaScript, PHP, Python, Vue.js, Laravel, Django, Node.js

Styling & UI: TailwindCSS, Bootstrap, MaterializeCSS

Tools & Platforms: Git, MySQL, Redux, Google Maps API, OpenAI, Twilio, Semaphore (SMS API), Socket.IO, AWS S3

Other: Offline-first app design, API integration, GPS tracking, real-time updates
